

The Red Route of the Town trail is one and a quarter miles long, while the Blue Route is three and a half miles. You could just feel virtuous at taking all that exercise, or you may prefer to replenish the lost calories. For anyone who has built up an appetite, here is a selection of places to eat, drink and reflect on your walk.

In the interests of simplicity, listings are grouped roughly in the order you would find them as you follow the trail from start to finish. The list is not comprehensive, and will be added to over time.

*Before you set out, you may find a visit to **Bonbon** at 46 Queen Street worthwhile. They stock a mouth-watering selection of sweets to sustain you on your adventure.*
